Whereas the Coronavirus Disease 2019 (COVID–19) pandemic has exacerbated the public health and public safety risks inherent in combating wildfires;

Whereas Federal job classification and pay levels for wildland firefighters were established more than 30 years ago and should be re-evaluated based on the current wildfire risk and job market; and

Whereas wildland firefighters, first responders, sheriffs, and community leaders have acted bravely and risked their lives to contain dangerous wildfires across the United States to protect families and critical infrastructure: Now, therefore, be it
